Title:

Concepts and methods for identifying brain correlates of elementary mental states

Hon. Commissioner of Patents and Trademarks  
Washington, D. C.

Attention: Mr. Michael Woodward, Supervisor, Art Unit 1631

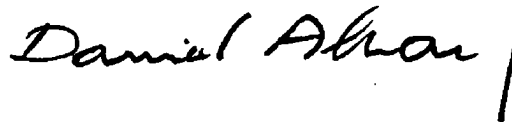

Dear Mr. Woodward:

I am an individual inventor who represents himself. I was given less than the ordinary time to respond to the first Office Action. A three-month extension of time ends on November 28.

I would very much appreciate if you could help in arranging a time for me to meet with an examiner in order to discuss the Preliminary Amendment before it is submitted.

I will call your office this coming Monday to find if such a meeting can be arranged.

Respectfully,

Philon@verizon.net
